Preliminary Crop and Live Stock Returns for Western Australia

By Western Australia Registry Dept

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1907 Excerpt: .of one ton per acre. The average yield of wheat per acre is the best for many seasons--in a few instances up to 20 and 27 bushels per acre were stripped. The hay crop (wheaten) this season has been very good in many instances, up to and 3 tons per acre were cut off fallow land. I might state that this season s returns show a big increase in fallow land throughout this district. The wool clip this season has been an exceptionally good one, but the lambing has been very poor, and some very heavy losses have been reported. Poultry-raising in this district is thriving, and the farmers are very fortunate in not having the tick pest to contend with. Fruit growing is on the increase, and there are several young orchards coming on. All stock throughout this district are looking splendid and are on...
