Very helpful for all class of people. Sure, it is actually play, nonetheless an amazing and interesting literature. It is extremely difficult to leave it before concluding, once you begin to read the book.

Alphascript Publishing. Taschenbuch. Book Condition: Neu. Neuware - A codex is a book in the format used for modern books, with separate pages normally bound together and given a cover. It was a Roman invention that replaced the scroll, which was the first form of book in all Eurasian cultures.Although technically any modern paperback is a codex, the term is now used only for manuscript books, produced from Late Antiquity through the Middle Ages. The scholarly study of manuscripts from the point of view of the bookbinding craft is called codicology. The study of ancient documents in general is called paleography.Among the experiments of earlier centuries scrolls were sometime unrolled horizontally, as a succession of columns. This made it possible to fold the scroll as an accordion. The next step was then to cut the folios, sew and glue them at their centers, making it easier to use the papyrus or vellum recto-verso as with a modern book. In traditional bookbinding, these assembled folios trimmed and curved were called 'codex' in order to differentiate it from the 'Case' which we now know as 'Hard cover'. 96 pp. Englisch.
