Taylor & Francis Ltd. Paperback. Book Condition: new. BRAND NEW, Plantations and Protected Areas in Sustainable Forestry, William C. Price, Naureen Rana, Alaric Sample, Understand the social, economic, and environmental impacts of the development of forest plantations--and the conservation involved Controversy surrounds the question of how to best protect forests of high conservation value, while meeting the growing demands for wood and wood fiber-based products. Plantations and Protected Areas in Sustainable Forestry presents the views of a diverse group of conservationists and natural resource professionals who examine important social and economic as well as ecological aspects of the debate. The goal of sustainable forest management is kept at the forefront of the discussions, while alternative strategies to meet economic and social needs are explored in light of the need to conserve biological diversity and protect other important ecological services and environmental values in key forest areas. For developed nations, there is an ethical responsibility to consider sensible development as well as environmental conservation. Plantations and Protected Areas in Sustainable Forestry discusses many of the prominent issues that are raised when considering intensively managed forests (plantations) and/or strict protection of high conservation value forests (protected areas) in the United States and elsewhere. These issues include: the role of plantations and their management; forest management certification to ensure sustainability; job creation from plantations, the effects of intensive forest management on society and the environment; and the protection of biodiversity. This book provides a solid foundation on which to form a consensus that addresses the needs of economics and society as well as forest conservation. Topics in Plantations and Protected Areas in Sustainable Forestry include: * the future of forest plantations * forest management certification * community benefits derived from intensively managed industrial roundwood plantations * the extent to which intensive forest management...
