If you re the parent of a smart but scattered teen, trying to help him or her grow into a self-sufficient, responsible adult may feel like a never-ending battle. Now you have an alternative to micromanaging, cajoling, or ineffective punishments. This positive guide provides a science-based program for promoting teens independence by building their executive skills--the fundamental brain-based abilities needed to get organized, stay focused, and control impulses and emotions. Executive skills experts Drs. Richard Guare and Peg Dawson are joined by Colin Guare, a young adult who has successfully faced these issues himself. Learn step-by-step strategies to help your teen live up to his or her potential now and in the future--while making your relationship stronger.
