Createspace Independent Publishing Platform, United States, 2016. Paperback. Book Condition: New. Robert M Henry (illustrator). 254 x 178 mm. Language: English . Brand New Book ***** Print on Demand *****.Charlie in Fraction City is the latest childrens story in the Math MileMarkers® book series. This cheerful story uncovers the secret to an in-depth understanding of fractions. Its generally the parts of fractions that get all the attention, but this simple kid-friendly story seeks to set the record straight by identifying the true hero in fraction world, the whole. Math MileMarkers has created an endearing story that addresses some of the foundational skills introduced in the Number and Operations-Fractions, many of which are often misunderstood. In this adventure, a group of lively soon to be unit fractions set out to find their place as part of a whole. Charlie, a highly recognized whole club president, is there to help each fractional piece understand what it takes to be a unit fraction. In doing so, these fractional characters uncover key terms in the fraction world and learn that they really dont know their true value until they find their place as part of a whole. All books in the Math MileMarker series come with an educational component that identifies the learning standards addressed within the story and a narrative outlining the mathematical journey children will take as their learning progresses. Each book closes with a Math MileMarkers section which contains a task or question that a child might encounter related to each standard or mathematical skill. Math MileMarkers were designed to help parents and educators better navigate a childs journey thus helping them successfully arrive at their destination, prepared to take on the challenges of the road ahead. Other books in the series: Miss Penny Says Prove It! and On My Way...
