# Regulation Of Grid Voltage using an integrated Wind-PV system as STATCOM in Distributed Generation systems.

By Shrey Naik

GRIN Verlag Gmbh Dez 2014, 2014. Taschenbuch. Book Condition: Neu. 210x148x1 mm. This item is printed on demand - Print on Demand Neuware - Research Paper from the year 2014 in the subject Energy Sciences, grade: B.E EEE First Class, , course: M.E Power & Energy Systems Engineering, language: English, comment: Kindly also Publish the name of Co-author of the paper.This Paper was written to enlighten the Energy Engineers about the recent trends and development of Renewable Energy and improvement of power quality using the same with an energy efficient solution as proposed in the paper. This paper also highlights the flexibility of a FACTS based Compensator compared to conventional compensating methods. , abstract: In the proposed paper, it is described how a Solar PV Farm along with a battery storage system can be used to regulate grid voltage in a PV-Wind integrated distributed generation System. At night time Solar PV system is normally dormant (i.e. it does not generate power) but the stored power in batteries can be utilised efficiently to regulate the common coupling voltage by means of a FACTS based Static Synchronous Compensator (STATCOM) thereby improving the power quality. Various Utilities are facing major issues with Grid...

### *Reviews*

*Good eBook and helpful one. It really is writter in straightforward words and phrases and never confusing. I am just effortlessly could possibly get a enjoyment of looking at a published book.*

-- ***Romaine Rippin***

*The book is great and fantastic. it absolutely was writtern very properly and beneficial. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- ***Lyda Davis II***
