Reviews

It is great and fantastic. I actually have read and so i am certain that i am going to going to go through once again yet again in the future. I realized this ebook from my dad and i encouraged this book to find out.

(Dr. Kayden Gerlach)

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 26 pages. Original publisher: Washington, D. C. : U. S. General Accounting Office, 2004 OCLC Number: (OCoLC)55117689 Subject: Weapons systems -- Security measures -- United States -- Evaluation. Excerpt: . . . stated that they are in the process of updating this database, developing a rating system on the value of various techniques to be included in the database, and creating a classified technology road map that will prioritize the needs for various anti-tamper techniques. These tools are currently 18 unavailable. DOD and Sandia National Laboratories also have provided information on anti-tamper techniques and tools to program managers at periodic workshops where attendance is voluntary. To further assist program managers, DOD is in the process of overseeing the development of generic anti-tamper techniques, but it is uncertain to what extent such techniques address a programs specific needs. In 2001, DOD issued several contracts to encourage anti-tamper technology development. To date, several defense contractors have provided anti-tamper technology concepts, but according to the Executive Agent, programs need to further develop the technology before it can be applied to and function on a particular system. According to Air Force Research Laboratory and Sandia National Laboratories officials, generic anti-tamper techniques can be considered, but program managers have to design and incorporate the techniques needed for their unique systems. Program managers ultimately have to ensure that the techniques protect critical technologies and do not adversely affect performance objectives for the system. Anti-tamper protection is one of the key ways DOD can preserve U. S. Conclusions investment in critical technologies, while operating in an environment of coalition warfare and a globalized defense industry. However, implementation of the anti-tamper policy, thus far, has been difficult - in part because DOD has not developed an...
